

Sonoram Desert

Desert day full of fun
Come join me under the sun
Humming bird nest placed up high
Birds still sing their lullaby
Water trickles through the ground
Rattlesnakes make such nice sound

Monarchs flutter is so soft
Water lilies stay aloft

Beautiful cactus so green
The sky is so clean
Wind blows down and up

Look! A nice coyote pup!
The moon is about to come
Bugs buzz and humm

Night is now here
And it seems so clear
that the desert has so many secrets to share

What a beautiful place
